AISLE MASTER

LIFTING INNOVATION

Aisle-Master is acknowledged as the pioneer of LPG power in the articulated forklift sector. Aisle-Masters are fitted with a closed loop fuel system as standard, to improve emissions and fuel economy whilst a specially designed engine bay cooling system ensures the effective running of the engine for maximum uptime and reliability.

The main benefit of LPG is reduced emissions levels, ideal for indoor and outdoor operation, making it useful for trucks that are used in almost all industries, even the most emission conscientious. LPG power also offers 24/7 operation with no loss of power.

Mast Range	4300mm to 12400mm
Overhead Guard*	2311mm
Capacity	2000kg
Ground Speed*	11kph
Lift Speed (Laden)	0.4m/s
Lift Speed (Unladen)	0.5m/s
Front tyre size*	406 x 178mm
Rear tyre size*	457 x 200mm
Gradeability (Laden)	15%
Gradeability (Unladen)	15%
Engine	3.0l GM Water Cooled
Weight of truck	6400kg to 7000kg
Standard Colour*	Yellow and Grey
Standard Seat*	KAB

*Item of specification can be adjusted/modified to suit customer application and requirements. Fork length and lift height can be altered to suit customer application and requirements.
