Cold-room condition

The innovative AC system offers strong power, accurate control and excellent performance. High strength vertical gearbox provides reliable uptime. Emergency reverse belly button protects the operator from getting hurt. Emergency disconnecter will cut off power source to avoid accident when the truck goes out of control. Anti-rolling back brake keeps the truck from skidding down when truck is out of control or travelling on ramp.

Compact and light weight creates excellent maneuverability and passing ability. 1500KG capacity handles most applications.

Special anti-vibration technology extends maintenance-free battery life.

Temperature indicator protects battery. Internal charger for easy charging.

Ergonomically designed tiller head helps increase efficiency.

Safety: Handy Emergency Disconnect Button and Durable Driving Unit ensure safety under any situation.

Serviceability: Assembly Components, Easy for Diagnosis and replacing.
